Education

Charotar University of Science and Technology (CHARUSAT), Gujarat

2023 - 2027

B.Tech. Computer Engineering

Prayag Vidhya Sankul

2021 - 2023

12th Standard - PCM

PR: 92.37

12th Gujcet

PR: 93.76

Technical Skills

Programming Languages	C , C++ , Java
Frontend Development	React.js , HTML, CSS , JavaScript
Backend Development	Node.js , Express.js
Cloud & DevOps Tools	Git/GitHub

Projects

Clothescos

- Clothescos is an interactive web platform that allows users to design personalized t-shirts by selecting elements like patterns, colors, collars, and stickers. It offers real-time previews of designs from multiple angles, enhancing user engagement and creativity.
- The platform aims to provide a unique, customized shopping experience compared to traditional clothing websites.

Itinerary – The Trip Planner App (In Progress)

- Developing Itinerary , a trip-planning app to help users plan, organize, and manage their trips efficiently using Jetpack Compose & Kotlin.
- **Key Features:**
 - o User-friendly itinerary planner with date-wise scheduling
 - o Budget tracker for expense management
 - o Offline mode for accessing trip details without internet
 - o Local storage with Room Database for saving user preferences

Certifications

NPTEL - Data Structures and Algorithms using Java

- Successfully completed the Data Structures and Algorithms using Java course on the NPTEL platform, gaining proficiency in key concepts such as arrays, linked lists, trees, graphs, sorting, searching, and dynamic programming. Applied these techniques to optimize code and solve complex computational problems

Java 11 Essentials Course

- Completed Java 11 Essentials Course Gained proficiency in core Java concepts, object-oriented programming, and advanced Java 11 features. Demonstrated a strong understanding of Java 11 syntax, libraries, and tools to develop robust and scalable applications.
